Speaker: Sven Diederichs (B150)

# RNA@dkfz. PROGRAM

**13:00 – 14:45**

Welcome Sven Diederichs

- |   |                       |   |      |
|---|-----------------------|---|------|
| 1 | Ilse Hofmann          | Plakophilin 1 and its role in the post-transcriptional regulation of cytokine expression  | A190 |
| 2 | Maiwen Caudron-Herger | Proteome-wide identification of RNA-dependent protein complexes:<br>Modulation of protein-protein interactions and functions by RNA | B150 |
| 3 | Ricardo Pecori        | Editing of specific RNAs by combining the activity of Apobec1 and CRISPRs proteins  | D150 |
| 4 | Francesca Tuorto      | Genome recoding by tRNA modifications   | A130 |
| 5 | Marcel Klingenberg    | The role of long non-coding RNAs in liver cancer – A functional screening approach  | B150 |

**14:45 – 15:15**
